May 15, 2019

Dear Police Based Victim Service Programs, Partners and Funders:

The Board of Directors set out to find someone with the right vision and experience to lead Police Victim Services of BC through its evolution and we are delighted to announce we have that leader.

I am pleased to announce the appointment of **Ian Batey** as Executive Director, Police Victim Services BC. Ian will commence his new role May 21, 2019.

PVSBBC has terminated rental of the office space in Surrey and Ian will be based out of Victoria.

Ian has honed his skills in strategic leadership roles across the government, not for profit, business and volunteer sectors. He values building strong and enduring relationships and opportunities for engagement with individuals, stakeholders and community representatives.

Ian will be working from an Action Plan designed to meet the key medium-term objectives set by the Board of Directors, specifically front line training, communication and advocacy priorities. As well, he is committed to engage members of our organization, stakeholders and funders through a series of regional meetings commencing in early June. The purpose of this engagement is to gain a thorough understanding and appreciation of the challenges facing the delivery of victim services as well as opportunities to move forward.

After commencing, you will be able to contact Ian by:

Phone: 1-877-869-0720 or 604-501-2502

Email: Ian.Batey@policivictimservices.bc.ca

Please join us in welcoming Ian to his new role as Executive Director for Police Victim Services of BC.

Sincerely,

Karyn French
President, Board of Directors
